# VERSA MAX

## Setting a New Standard in Film & Flexible Packaging

Designed to make short run flexible packaging profitable, Versa Max delivers unmatched print quality — setting the standard in film and flexible packaging excellence.

The best mid-web productivity available, Versa Max offers the fastest changeovers in the industry. Its advanced print platform was engineered with Business Responsive Technology to offer a lower cost per printed unit than any other press in its class. With extra capacity and improved productivity, you can generate revenue on short run jobs like never before.

### Business Responsive Technology

Redefining Label and Package Printing Production

Technology at Mark Andy starts with our vision — to be responsive to converter needs by developing solutions that are superior in quality, highly productive and increase profitability.

Continuous innovation that offers unparalleled long-term benefits — it's what we call Business Responsive Technology.

Increased Productivity Means Increased Revenue

## Short Run Flexible Packaging Can Be Profitable

Combining high production speeds with top quality printing across a variety of substrates, Versa Max was developed to meet customer and industry demands.

### Cylinder Stack Integrity

- Solid lock up of print station components
- All cylinders are parallel for print squareness
- Accurate and automatic pressure settings

### Multi-axis Motion Control

- Direct servo-driven impression, plate mandrel and anilox
- Accurate positions and velocities of print cylinders and chill drums
- Precise print registration

### Fast Setup of Inking System

- Anilox and chamber move into aisle for set up
- Exchange components within minutes
- Quick disconnection of ink lines and pump washup

### Purpose-built Dryers

- Each station dryer designed to meet requirements for coat weight, percentage solids, retained solvents, etc.
- Gas, Electric, UV, UV LED, Electron Beam (EB) drying and curing available

### High Productivity

- Automatic gauged pressure settings produce correct impression instantly
- Web dynamics control and auto-register control put job into register immediately
- Solid cylinder stand lock-up enables press to run at rated speed

For individualized configurations, our Custom Design Team can develop a variety of printing and converting solutions to meet many specialized applications. Ask your representative about all available options.

## Specifications & Configurations

The Versa Max features technical innovations to meet the high demands of short run film and flexible packaging applications. Ask your representative about all available options and custom configurations to support virtually any opportunity.

Versa Max	Imperial	Metric
Web Width	22/26 inch	560/660 mm
Max Speed	1200 fpm	366m/min
Substrate Range	.5 mil – 18 pt	12 – 457 micron
<i>Machine configuration is based upon desired substrate capability</i>		
Print Repeat Range	10 – 32 inch	254 – 813 mm
Unwind Capacity	40 inch	1016 mm
Rewind Capacity	40 inch	1016 mm

### Features

Drive System	Fully servo-driven web transport and registration control system
Print Station	Direct servo-driven plate mandrel, impression roll and anilox roll
Drying & Curing	High-efficiency hot air drying (water-based or solvent) Single UV or Dual UV (chill drum optional) Combination hot air and UV ProLED UV LED Electron Beam (EB)
Backside Printing	Web-reversing options available

### Options

Solvent Safe Print Station
In-line Lamination
Butt Splicing
Turret Rewind
In-line Die Cutting
Denesting Conveyor
High Pile Stacker

## Applications

- Form, Fill & Seal
- Lidding
- Lottery & Gaming Tickets
- Pouches
- Sachets
- Shrink Sleeves
- Roll-fed Film Labels

With a mission to serve as your **Total Solutions Partner**, our global team is committed to delivering high quality, innovative solutions and support to help you drive profitability. Mark Andy responds to business needs by offering a broad range of equipment, education, support and supplies to printers and converters around the world.

Partnering with Mark Andy means access to leading global brands with **Mark Andy** narrow and mid-web printing presses, **Rotoflex** finishing solutions, and a complete line of **Mark Andy Print Products** consumables and pressroom supplies. All Mark Andy products are supported by the largest customer service team in the industry, committed to delivering spare parts, technical service, PM programs, retrofits and rebuilds, as well as dedicated hands-on training through **Mark Andy University**.
